

Artscape

Landscaping the garden of the award-winning house pictured was a challenge, even for Artscape - twice winners of the 'Best Garden' award at the prestigious Hampton Court International Flower Show.

Careful assessment of the soil, available light and, of course, the client's requirements were made. Borders were introduced to create structure, division, mystery, screening, privacy and all the year round interest and scent. Topiary was added to achieve a strong accent. New paths were created to provide flow around the garden and provide linkage to doors, patios, the driveway and seating areas. Judicious use of lighting ensured the garden can be enjoyed at night.

If you're harbouring a landscaping project, give Ross Moyse a ring - he might be able to achieve equally pleasing results for you.

The Artscape offer:

- A 10% discount off all design work on production of the Partnership Card
